

## All about « Les Délices de la Vallée du Regino »

A family holding whose agricultural activities are mainly developed on the commune of Feliceto.

The objective of our subsidiary, the SARL DVR, run by Ange-Francois VINCENTELLI, is to put the products of the SCEA PIEVE agricultural company on the market.

Our primary concern is the quality of our home grown produce.

We do not only take into consideration the nutritional value of our olive oil and its derived products, but also wish to justify our activity by striving to give total customer satisfaction. We select prime quality trees, pay particular attention to all year round treating, hand pick the olives, grind and condition the produce with the utmost rigour.
